

Security Resilience

Protecting the integrity of business amidst unpredictable change

March 5, 2022

Security Resilience

The ability to protect the integrity of every aspect of the business to withstand **unpredictable** threats or changes...

...and then **emerge stronger**

Security resilience
is confronting a new
world where
everyone and
everything are
connecting

Ever-Expanding Attack Surface

Business boundaries are blurred
Businesses operate as ecosystems

Billions of ever-expanding connections
Shared, accessible, operate at digital speed

Work patterns constantly shifting
Hybrid work is here to stay

Multi-Environment IT Reality makes security resilience harder

Traditional

Security Resilience

The **5** Dimensions of Security Resilience

- 1 See More: Activate Billions of Signals**
telemetry across ecosystem, active monitoring and filtering
- 2 Anticipate What's Next: Embrace Shared Intelligence**
actionable intelligence and expertise
- 3 Take Right Action: Prioritize What is Most Important**
risk-based contextual analysis, continuous trust assessment
- 4 Close Gaps: Pervasive Defense Across Ecosystem**
open platform across users/devices/networks/applications
- 5 Get Stronger Every day: Optimize Efficacy**
orchestrate, automate, spring back faster

**Powering security resilience to protect the integrity of
business amidst unpredictable change**
